👤 OBJECTIVE

Currently I'm an undergraduate at the UIT. I'm looking for a fresher job in the **frontend** or web related, and will be able to work fulltime from **March/April 2020**, with a wish of staying well long in 1 good company. I'm grinding and persuing frontend technologies and am quite active on Github. I also used to aggressively active on **Stackoverflow**, ranked among the **top 15% of users** with frontend-related tags.

💼 SKILLS

• **HTML5, CSS3, Javascript, SCSS, VueJS, React**
• **Git, Github**
• **Figma, Photoshop**
Willing to learn: Nodejs, Typescript, Puppeteer, CI/CD,...

🎗 AWARDS

ACADEMIC EXCELLENCE AWARD | Github
• Program: https://devc-challenge.coderschool.vn
• Summary: Get the highest score among the class
• Technology: **React Native**

🖥 PROJECTS

TOOL ĐĂNG KÝ HỌC PHẦN UIT | Live Preview | Video | Stale Video | Github
• Role: Personal project
• Technologies: **Google Sheets, SheetJs, Bootstrap, ...**
• Summary: Help UIT students register for classes easier

NETFLIX REDESIGN | Live Demo | Github
• Role: One-man
• Technologies: **Figma, VueJS, NuxtJS, Vuetify**
• Summary: Wireframe, redesign, high-fidelity mockup and prototype some pages of the Netflix site.

GAME CAPTAIN AMERICA AND THE AVENGERS NES REMAKE | Video Demo | Github | Release
• Role: Developer, Technical Architect and Leader (of team 3 people)
• Technologies: **C++17, DirectX9**
• Summary: Clone 4 stages of the game *Captain America and The Avengers NES* with the restriction of not using any third-party engine nor framework, but plain C++ and DirectX
• Facts: Effectively collaborated by 3 team members, the team was super productive. This was the best project in one of (if not) **the toughest classes in the UIT**, being done blazingly fast, with super high quality. It's far superior than the runner-up teams, and far superior over what the subject expected.

WEB LEARNING JOURNEY | Github
• Role: Personal project
• Technologies: **HTML5, CSS3, JS, SCSS, Vuejs, React, NodeJS, Puppeteer,...**
• Summary: Repository contains tons of small to medium-sized practice projects on the web related
